SIRE IN GOD WE TRUST

DAM 606 (EXTRA SPECIAL X MONOPOLY)

DNA THC PHAF DSF

BIRTHWEIGHT 86 lbs

COMMENTS We are super excited about this new young sire that we purchased from Brad Smith. There is no question that based on the early inquiries, interest and demand for Heir to the Throne will be huge. He is without a doubt one of the elite combinations of pedigree and pizzazz to hit the market in 2023, maybe ever!! In a few years, you will look back at this initial offering and Heir to the Throne will have been labeled the 2023 Rookie Sire of the Year. His mother, 606, who has already proven to be one of the hottest cows in the Industry. There is little doubt that her legacy of producing champions will last long into the future. With 606 in the pedigree, and sired by the great In God We Trust, Heir to the Throne will be equally potent at siring bulls, steers or females that can win at any level. Those that have seen Heir to the Throne compliment his unique combination of look and mass. He is massive and square hipped, deep in his twist and has a huge lower stifle. Add that to his bold rib cage and sound structure and you have a bull that will make a difference. He will impact cow herds for years to come and his progeny will increase revenue based on calf sales and replacement female value in your herd, translating into more money in your pocket. This bull is truly elite and matches our definition to a futuristic sire. Do yourself a favor and breed to Heir to the Throne.

Quantity: 5
