COMMENTS Yet another daughter out of 40-6. I don't want to sound like a broken record but I'm running out of terms to describe how much I like that cow....and her daughters. The cattle that stem back to this cow don't miss! There's a lot of predictability in these daughters out of Bankroll's full sister. I think they can be used for anything whether your choice is steer production or elite show heifer matings. Without a doubt a true sale feature here!
