**COMMENTS** The \$101,000 sensation from the 2022 Dakota Classic that Thad Hutchens purchased. He knows the kind that generate and has partnered on some of the most prolific and dominate females to call Madison home. 5007 is a Whizard daughter that we wonder how you could you paint any better. Her build is indicative of the most elite type of club calf females, mammoth bones, whale bellied and incredible looking. An absolute show stealing phenotype and her mother, Z255, was the leading lady at Vanhove Cattle Company at the beginning of this past decade when the ET program was small we turned to her annually to produce the high sellers whether that be steers or heifers. Either mating here shows dollar signs on our calculator.
